**Called:** Martin Blom, Felix Jönsson, Hannes Kaulio, Arvid Nyberg, Marcus Schagerberg, Jakob Windt

**Attended:** Martin Blom, Felix Jönsson, Hannes Kaulio, Marcus Schagerberg, Jakob Windt

Secretary: Martin Blom

Adjuster: Hannes Kaulio

## 1 Opening

Everyone introduced themselves.

## 2 Notes

- A-STAR
- Individual scenes

## 3 Discussion

Discussions around data collection. Emission, congestion points and meeting deadlines were mentioned. Everyone agreed on getting the basics down first as a starting point. Maybe use A-STAR to begin with. Try to really break down tasks. Use full UI for changing parameters in the simulation. Testing Internally: A few members weekly make a build of the project and test it for an hour or so, then document the experience. Use individual scenes and work with prefabs to make version control easier. Use branches for different tools to make tracking bugs and working on multiple things easier.

## 4 Decisions

- Weekly meetings on Monday at 3:00 PM to start with.
- Send email with necessary information to Natasha.
